# ABOUT

# SABIRI SALES CORPORATION

## What we actually do.

*Manufacturer, Supplier and Distributor of an extensive range of Biomass Coal.*

**Sabiri Sales Corporation** Was Established In The Year 2018 By **Mr. Mohsin Kasmani** In Ankaleshwar With The Objective, Of Set Up New Heights And Glory In The Business Company Commenced Operations. Sabiri Sales Corporation Is One Of The Leading Manufacturer & Suppliers Of Biomass Coal With Quality In India.

### CLEAN

- Free from contamination.
- Burns with low ash.
- Reduced carbon content.

### RENEWABLE

- Made from agro biomass and wood dust.
- Promotes and enhance green culture.

### EFFICIENT

- Consistent in quality and moisture content.

### ECONOMICAL

- Attractive calorific value
- Low energy cost

### SUPPLY

- Uninterrupted supply at your doorstep.
- Available in 25 Kg & 1 Ton Packing.

### FRIENDLY & SAFE

- Can be used in different type of furnace
- Multiple applications
- Power, Steam generation
- Heating, Cooking

**Sabiri Sales Corporation** has Manufacturing Plant of Biomass Coal. This Is Always On Demand For Coal Suppliers Just Because Of Its Good Quality In Terms Of The Properties Of Strong Coking Which Is Great For Reputed Steelmakers.

# SABIRI SALES CORPORATION

Believed in Quality

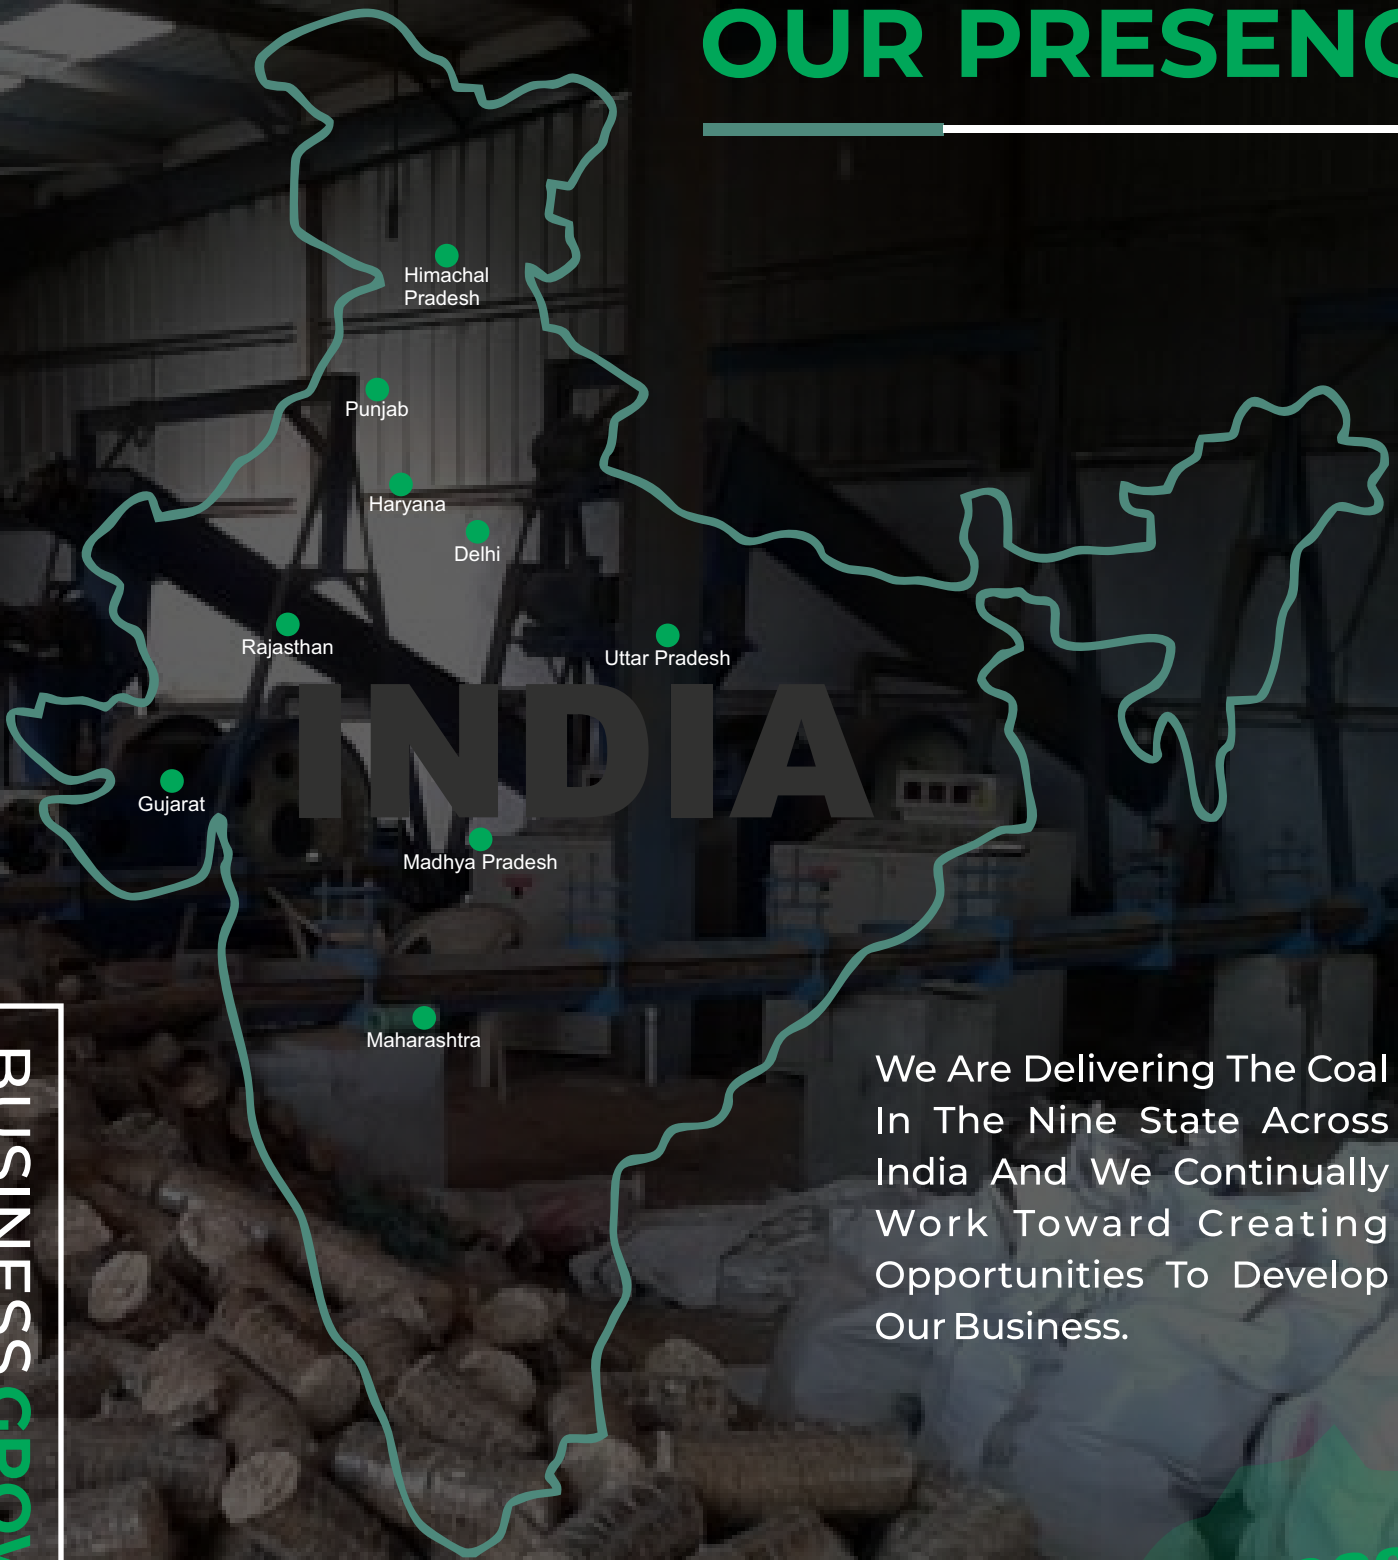

## VISION

To Play A Leading Role In Delivering A Reliable Energy Source In A Manner Which Adds Transformational Value To Society. To Create Superior Customer And Shareholder Value As The Safety, Lowest Cost And Most Environmentally Responsible Supplier Of Coal Based Energy In The India.

## MISSION

To Provide A World Class Quality Biomass Coal To Our Customers. Keeping Inline Commitment With Customers Regards Quality, Incumbency, Well-timed Shipments, And A Transparent Business Approach. We Deliver Value And Trust To Our Customers.

# OUR PRESENCE

We Are Delivering The Coal In The Nine State Across India And We Continually Work Toward Creating Opportunities To Develop Our Business.

BUSINESS GROWTH

# Biomass COAL

## BIOMASS PELLETS

Biomass Pellet is densified form of biomass. In addition to forestry waste wood, agricultural residue is a big worry and is currently burned in the fields in India as well as other countries. This agricultural residue is converted to pellets for its efficient usage in industrial boilers. These biomass pellets can be used in AFBC boilers, travelling grate and dumping grate boilers quite easily in various industries like FMCG, Pharma, Chemical, textiles and other small industries. Use of biomass pellets in these industries in place of coal, diesel and furnace oil will help in reducing their carbon foot print and will also help in reducing pollution levels in India.

## Biomass Pellets Technical Specification

1. Gross Calorific Value	3500 – 4200 Kcal/kg
2. Ash Content	5-20%
3. Moisture Level	7-10%
4. Size	Dia – 6-10 mm, Length – 20-30 mm
5. Bulk Density	600-750 Kg/m <sup>3</sup>

# Biomass COAL

## BIOMASS BRIQUETTES

Biomass Briquette is densified form of biomass. Its size is bigger as compared to pellets. This is mainly used in low pressure grate fired boilers in FMCG, pharma, chemical industries in India. In recent past it has replaced coal in many industries. Like pellets it helps to reduce carbon foot print of the industries and help in fighting rising pollution levels.

The materials for Biomass Briquettes including paper, leaves, pine needles, sawdust and shop waste were ground into particles of 6 to 8 millimeter (mm) in diameter to increase surface area for soaking and to enhance packing efficiency.

## Biomass Briquettes Technical Specification

1. Gross Calorific Value	3500 – 3800 Kcal/kg
2. Ash Content	5-15%
3. Moisture Level	10%
4. Size	Dia – Upto 90 mm, Length – 100-200 mm
5. Bulk Density	600-700 Kg/m <sup>3</sup>

## Proud To Be **Green**

---

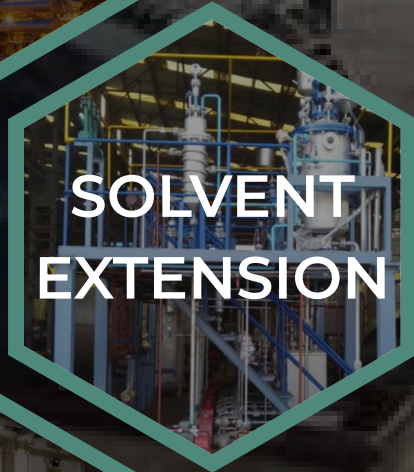

We profoundly care for the environment because in all sincerity, we believe that the resources which we have with us today are the valuable gifts that the Mother Nature has bestowed upon us. We strive to give back to our surroundings as much as we can.

Apart from mitigating pollution levels and making constant efforts towards the reduction of the emission of greenhouse gases and reducing our carbon footprint, we engage in regular plantation drives and nurturing of our flora & fauna.

## WHY CHOOSE US?

Sabiri Sales Corporation Serves The Biomass Coal At Best Price Lower Than Market Prices This Is Very Important For Factories And Huge Enterprises For Getting Effective Productivity.

- ✦ Excellent Service
- ✦ Best Quality Material
- ✦ Always Challenging Rate
